

Nathan Anderson and family have been working with the bulls for the last month, using low stress livestock handling methods. The bulls learned to load in a trailer and that the trailer is a comfortable place to be! Videos on Indreland Ranch's fb page. Nathan ranked the bulls on a number system 1 - 5.

1.	being excessively gentle and takes extreme pressure to move				
2.	gentle, can take a lot of pressure, doesn't get worked up				
3.	moves nicely off pressure, doesn't get worked up easily and looks to the handler for instruction				
4.	more sensitive and requires more space				
5.	a very large flight zone with very sensitive self preservation instincts
